your application you will be required to complete a spreadsheet with the details of the items/services you wish to purchase; this will expand as you enter each item.

Businesses will be required to make a series of declarations to confirm their eligibility for grant assistance, including subsidy compliance, and that the information they have provided is accurate and complete. Incomplete applications will not be considered.

The District Council reserves the right not to proceed any further with an application if there is doubt over the evidence provided.

9. How Your Grant Application will be Assessed

Grant applications will be assessed by District Council officers and determined by the Derbyshire Dales UKSPF Partnership Executive.

Grant awards will be based on the information submitted and declarations made by a business within their application.

The application process is competitive and each application will be assessed on its own merits against the grant criteria, objectives and outcome requirements of the scheme.

The assessment will also include consideration of:

- inclusion of business premises on the Council's NNDR - National Non Domestic Rates Register (to determine if the business is registered for Business Rates)
Note: some registered businesses may pay nothing if entitled to 100% Small Business Rate Relief but will still appear on the register
- the number of FTE employed staff supported by the business
- need for the project
- deliverability of the proposals
- environmental considerations
- value for money and additionality of the grant.

In assessing applications, consideration will be given to the total grant funding available under the scheme.

10. Grant Award Process

The District Council aims to assess fully completed applications within 20 working days. A record will be made of the decision, the grant awarded, or the reasons for rejection.

Successful applicants will be issued with a grant agreement to sign and return within 5 working days.

Unsuccessful applicants will receive a letter explaining the reasons why their application has been unsuccessful. Applicants can ask the Derbyshire Dales UKSPF Partnership Board to review their decision if they can evidence that:

- the decision was based on an error of fact
- the decision was wrong in law
- the UKSPF Grant Panel made a procedural error.

All grant funding decisions are subject to availability of funds. The Council may close the application process at any time due to the number of applications received.

The Government and the District Council will not accept deliberate manipulation or fraud. Any business providing false or misleading information to gain grant money will face prosecution and any funding issued will be subject to clawback, as may any grants paid in error. Clawback of grant funding may also apply should project outcomes fall significantly below application forecasts at monitoring stage.

Payments will only be made upon receipt of:

- a fully complete grant claim form

The District Council will aim to pay fully completed claims for eligible expenditure within 10 working days.

12. Subsidy Allowance

All grants provided under the Rural Innovation Grant scheme must be compliant with UK subsidy rules.

Subject to a successful application, grant assistance under the Rural Innovation Grant scheme will be offered / paid under the **Minimal Financial Assistance** subsidy allowance which allows an enterprise – including any linked entities together constituting a single economic entity engaged in economic activity – to receive up to £315,000 in financial assistance during any three fiscal year period.

To confirm the applicant business is eligible to receive this assistance, you must declare the full amount of: Government assistance (inc. COVID business grants); EU assistance (inc. De Minimis) and any other public sector aid (inc. free or subsidised advice or consultancy services) you have been awarded in the current and previous two fiscal years.
